Renaissance Aviation Publishing, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Volume 2 of The Thinking Pilot's Flight Manual carries on the widely praise, penetrating, and clear-headed approach of Volume I, addressing matters of importance to pilots that ordinary flight training manuals never touch. It delves into everything from the realities of making the go/no-go decision during the takeoff roll, nailing spot landings, which emergencies to practice, and how to take babies and kids flying. It explores how we scare our passengers without realizing it, IFR training in IMC, and takes a hard look at spin training. Rick Durden is one of three 2015 recipients of the Endeavor Award, honoring volunteer pilots who have made significant contributions to flying to serve the public. For 25 years he has made flights in remote areas of the U.S. and Central America in support of conservation. He is an Airline Transport-rated pilot with experience in over 200 types of airplanes, a practicing aviation attorney who has been involved in hundreds of aircraft accident cases, writer, aviation magazine editor, safety counselor, and flight instructor.
