

## Red Kangaroo: The World s Largest Marsupial (Hardback)

By Natalie Lunis

Bearport Publishing, United States, 2010. Hardback. Book Condition: New. 257 x 206 mm. Language: English . Brand New Book. An adult male red kangaroo is taller than most people. It can stand up to 7 feet (2.1 m) tall and weigh up to 205 pounds (93 kg), which makes it the world s largest marsupial. Despite the fact that it grows to such a big size, a newborn red kangaroo is tiny. The joey is about one inch (2.5 cm) long, or the size of a grape. It s hard to believe that such a little baby will grow up to be a king-sized kangaroo! In Red Kangaroo: The World s Largest Marsupial, large color photos and grade-appropriate text will engage young readers as they learn about the natural habitat, physical characteristics, diet, life cycle, and behavior of this super-sized kangaroo. A comparison diagram is also included to show readers the animal in relation to a familiar object.
