This item is printed on demand - Print on Demand Neuware - The coalition and North Atlantic Treaty Organization (NATO) face a complex and difficult challenge in their search for solutions to the Afghan conundrum. The establishment of Provisional Reconstruction Teams (PRTs) represents a revolutionary step in meeting this challenge. The PRT program combines security and civil action to facilitate regional development. PRTs afford an important interface and make possible information sharing among the local population and government, non-government and international aid organizations. Despite their diminutive size, PRTs possess an innate ability to influence a significant proportion of Afghanistan's rural population, thereby reinforcing regional stability. This monograph provides a historical overview of Afghanistan's recent history, reviews the contemporary causes of internal instability, illustrates the international response, and analyses three existing approaches to PRTs: those of the United Kingdom, Germany and the United States. It also identifies and evaluates a number of PRT tactical and operational lessons learned. The monograph concludes by combining the pertinent lessons learned into a recommended PRT 'blueprint' to meet the contemporary and evo 74 pp. Englisch.
