Pub Date: 2006 Pages: 145 Language: Chinese in Publisher: China Electric Power Press institutions of higher learning in the 21st century planning materials: cogeneration elaborated cogeneration. heat. cold and the trigeneration the basic principles. thermal power plants hot economy. hot-economic indicators. thermal equipment and heat system. The main contents include condensing steam power plants. energy conversion. and thermal economy overview of the heat load. heat and power plant heat economy and its indicators. the Water Heat heating and deoxygenation system. heating equipment and systems. hydrothermal heating adjustment method. the heating steam turbine power plant thermal system. 21st Century Colleges and Universities planning textbook: cogeneration Colleges thermal engineering. cogeneration and urban central heating. power plant heat and power engineering . power plant centralized control run professional specialist cogeneration course materials are also available to the relevant professional teachers and students. and related engineering and technical personnel of enterprises reference. Contents: Preface Introduction Chapter condensing steam power plants in energy conversion and thermal economy of the first condensing power plant energy conversion process losses and efficiency of the second condensing...

Reviews

This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You wont sense monotony at at any time of your time (that's what catalogues are for relating to should you request me).
